

NAME:

---

May 2015 — Grade 6/7

This is how the chart works: Take it home and put it on your fridge and leave it there for the month. Do NOT keep this chart in your music folder or in your instrument case, as it might get misplaced by either you or your sharing partner. Please have a parent or older sibling initial the appropriate box each time you have practiced for 30 minutes. At the end of the month, you will hand your chart in, and you will receive a mark for your minutes of practising. A new chart will be distributed for the next month.

**Important:** Even if you have NOT practised much during the month, still hand in the chart with your parent's signature at the bottom. This lets me know that your parents are aware of how much or how little you are practising. You will receive credit for handing in a blank signed chart, but you will receive a zero if you submit nothing.
